

10mw solar farm Mali

The farm provides fresh fish, chicken, milk and vegetables to the national and local market of Mali, Bamako. In addition to the farm's 100 employees, it provides work for local traders, and trickle-down benefits for ...

SummaryLocationOverviewConstruction costsBenefitsSee alsoExternal linksThe Fana Solar Power Station is a planned 50 MW (67,000 hp) solar power plant in Mali. The power station is in the development stage, under concessional terms by the company Legendre Energy, a subsidiary of the Legendre Group, a French conglomerate, under a public private partnership arrangement.

UK-based clean power developer PASH Global, majority-owned by Dutch commodity trader Trafigura, announced on 15 January the acquisition of a 49.9% stake in the 50MW Kita solar PV park in western Mali.

The farm provides fresh fish, chicken, milk and vegetables to the national and local market of Mali, Bamako. In addition to the farm's 100 employees, it provides work for local traders, and trickle-down benefits for other commercial operators.

Fully commissioned, the solar facility will supply over 91,700 homes in Mali with power and save over 51,700 tonnes of carbon dioxide (CO₂) emissions a year. The solar farm is being constructed under a 30-year build, own, operate and ...

Located in the town of Kita, 180km west of Bamako, the solar PV farm project will have a total production capacity of 50MW. When construction is completed in 2020, the project will become the largest solar farm in West Africa and one of ...

5 ???· On January 15, Mali's cabinet awarded a concession contract to build a 50 MW solar farm in Tiakadougou-Dialakoro in the Kati administrative subdivision, close to Bamako, to AMEA Power, a UAE firm which has a growing number of projects in ...
