Could solar power keep the planet powered for generations to come?

According to Hegen, solar power has the potential to sustainably power the planet for generations, as in a single hour, the amount of power from the Sun that strikes the Earth is more than the entire world consumes in a year. My Modern Met features Hegen's mesmerizing aerial photos of enormous solar farms.

How many solar panels are there in the UAE?

On November 16, the UAE inaugurated one of the world's biggest solar plants, with nearly 4 million solar panels covering 20 square kilometers of desert. #This aerial photo taken on July 4, 2023, shows solar panels on roofs at the Solar Settlement Gelsenkirchen-Bismarck in Gelsenkirchen, Germany.

How do solar power plants work?

Those round, center-oriented constructions are solar thermal power plants. Thousands of mirrors called heliostats concentrate the sun's energy to a tower that heats molten salt. The salt can reach very high temperatures and hold the heat even after the sun has gone down.

Why is aerial photography important?

The photographer tells Fortune that he often sees unintentional artistic beauty in the way humans interact with the planet in large-scale ways. " [Aerial photography] shows dimensions and reveals insights we wouldn't be able to see from the ground," the photographer says.

Where are solar-panel farms being installed?

Solar-panel farms are being installed on hillsides, rooftops, and pastures, and, more and more, in floating arrays in harbors or reservoirs. Gathered below are images of some of these new solar-power installations around the world. Hints: View this page full screen. Skip to the next and previous photo by typing j/k or </->.

What is the solar power series?

The project is titled The Solar Power Series. Hegen is a German photographer who has focused his career on capturing aerial photos that offer insights into the traces humans are leaving on Earth's surface. Hegen "provides an overview of places where we extract, refine and consume resources," his website reads.
