

Benin inno neat energy solutions

INNO-NEAT Energy Solutions Projects Contact About. Overview. We develop innovative Solar-battery modules for off-grid households, small businesses, and e-mobility applications. Our battery modules are designed to be repairable and maintainable lowering the overall cost of ownership for solar home systems for low-income communities as well as ...

INNO-NEAT Energy Solutions is one such startup that is prototyping solar powered water filters to enhance access to safe and clean drinking water in low-income communities. Godfrey Simiyu Katiambo is ...

Kenyan startup INNO-Neat Energy Solutions has developed a solar-powered water filter that removes contaminants such as bacteria, viruses, and heavy metals, making water safe for consumption. Founded in 2022, INNO-NEAT Energy Solutions was established with a core focus on addressing the critical issue of lack of access to safe and clean water in ...

INNO-NEAT Energy Solutions is one such startup that is prototyping solar powered water filters to enhance access to safe and clean drinking water in low-income communities. Godfrey Simiyu Katiambo is Founder and CEO of INNO-NEAT Energy Solutions (Nairobi, Kenya)

The start-up that he founded and for which he serves as Chief Executive Officer is named INNO-NEAT Energy Solutions, and Katiambo and his team have developed a unique solution to the two problems - bringing electricity to communities that lack it and also providing a reliable source for clean drinking water.

We manufacture solar-ready repurposed lithium-ion batteries from used cells for use in solar energy storage applications targeting low-income off-grid communities in Kenya. This project ...
