

Bertoli provides robust, easy to use and maintain 400Hz diesel ground power units from 60 to 180kVA. All models feature a user-friendly electronic device for GPU management through which operators are able to control engine dynamics (low/rated speed, etc.) ...

Bertoli provides robust, easy to use and maintain 400Hz diesel ground power units from 60 to 180kVA. All models feature a user-friendly electronic device for GPU management through which operators are able to control engine ...

Bertoli Power Units è un costruttore italiano di motopompe e gruppi elettrogeni, venduti con successo in tutto il mondo. Gli obiettivi primari della Bertoli sono il perseguimento ed il mantenimento di standard qualitativi elevati finalizzati alla soddisfazione del cliente.

Bertoli, manufacturing entirely in Italy, offers reliable, user friendly and easy to maintain 400Hz ground power units from 60kVA to 180kVA. GPUs main features are: 2000 RPM Water cooled electronic diesel engine with radiator and blower fan; Primary brand 400Hz alternator

We build generators that guarantee a source of energy even in the event of a sudden power cut due to a fault or adverse weather conditions. The emergency units are equipped with automatic panels which start the unit when the mains disconnect and automatically stop when the mains reconnect, transferring the load from the unit to the grid.

Bertoli designs and manufactures a range of ground power units (GPUs) for civil and military applications, including 28Vdc units with dedicated cooling systems. Press Releases Bertoli to Showcase Ground Power Units at Inter Airport Europe

Generatore a cardano BERTOLI 15CAR33T trifase capace di erogare una potenza di 30 KVA con attacco trattore da 1500 giri/minuto. Il generatore a cardano BERTOLI 15CAR33T ha una tensione di 400 V e una frequenza di 50 Hz. Il generatore a cardano BERTOLI 15CAR33T è dotato di un alternatore MECC ALTE completo di regolatore di tensione AVR. Il ...

We design and manufacture 400Hz battery powered electric and diesel ground power units with 60 to 180 kVA power. Our GPUs are reliable, precise, innovative and easy to use and service. Every machine is

Costruiamo motopompe ad alta efficienza nelle due versioni: su base o carrellate. Le macchine possono essere impiegate in diversi settori: dall'agricoltura come pompe centrifughe a bassa e alta prevalenza, fino al pronto intervento con pompe autoadescanti per il pompaggio di acque sporche in locali allagati.
