

A 10MW/50MWh battery energy storage system (BESS) spread across two substations in Slovenia has started a trial and testing period. The BESS projects are located at the Okroglo and Pektre substations and started their trial period this month, the company launching them announced.

Croatia will provide some EUR500 million (US\$534 million) in subsidies for battery energy storage system (BESS) technology, a government minister has said. Minister of Economy and Sustainable Development Damir Habijan revealed the funding, part of a larger EUR1.6 billion for energy projects, at the JANAF conference in Zagreb earlier this month ...

A 10MW/50MWh battery energy storage system (BESS) spread across two substations in Slovenia has started a trial and testing period. The BESS projects are located at the Okroglo and Pektre substations and ...

5 ???· MONTRÉAL -- EVLO Energy Storage successfully delivers battery energy storage units for its first BESS project in California. The project, with a capacity of 12 MW/64 MWh, will be commissioned in ...

The paper identifies multiple case opportunities for different power system stakeholders in Croatia, models potential BESS applications using real-world case studies, analyzes feasibility of...

Ameresco, a Massachusetts-based renewable energy developer, has secured contracts to design and build four battery energy storage system (BESS) projects totalling 379 megawatt-hours (MWh) in California from Avenue Capital's Middle River Power (MRP).

Terra-Gen's other notable energy storage project is the 140MW/560MWh Valley Center BESS, also in California, though that project was in the headlines in 2023 for the wrong reasons (including a battery fire ...

Terra-Gen's other notable energy storage project is the 140MW/560MWh Valley Center BESS, also in California, though that project was in the headlines in 2023 for the wrong reasons (including a battery fire and a theft of decommissioned batteries).

5 ???· MONTRÉAL -- EVLO Energy Storage successfully delivers battery energy storage units for its first BESS project in California. The project, with a capacity of 12 MW/64 MWh, will ...

Investor-owned utility (IOU) Southern California Edison (SCE) is seeking regulatory approval of resource adequacy (RA) contracts covering 620MW of BESS capacity across three projects.

Croatia's first large-scale battery energy storage system (BESS) with 66 MW capacity is expected to be

Bess california Croatia

commissioned in 2025. The country's revised national recovery and resilience plan (NECP) draft envisages a further 50 MW of BESS to be built by 2030 to complement its transmission grid and distribution network. The 66 MW BESS would be ...

Developer NGEN is deploying the largest battery energy storage systems (BESS) in Slovenia, Austria and Croatia, and wants to take its model beyond CEE too, CEO and co-founder Roman Bernard said.
