

At SCADA International, we design, build and manufacture future-proofed hardware for renewable energy projects. Our tailor-made solutions are developed and configured to match your needs and industry-specific ...

With the OneView ® Park SCADA, you get full ownership of all the data collected from the renewable assets. Our SCADA software is OEM independent, and you can choose to either replace your existing SCADA solution or connect it, depending on your needs. Either way, you get flexibility at your fingertips!

Our GPM SCADA system sets the benchmark for solar plant monitoring and management, outclassing all competitors. Its unmatched power and reliability make it the industry standard, setting a bar that others strive to reach but cannot surpass.

Collect and clean data from any solar plant, data acquisition system - SCADA, datalogger, database - and third-party service and aggregate it into a single cloud datahub. Transform Raw Data into Valuable Insights

This paper presents the design and implementation of a solar panel data monitoring system using a SCADA (Supervisory Control and Data Acquisition) system. The system is built via the Siemens S7-1200 Programmable Logic Controller (PLC) and programmed

At SCADA International, we design, build and manufacture future-proofed hardware for renewable energy projects. Our tailor-made solutions are developed and configured to match your needs and industry-specific challenges. Our unique expertise in SCADA systems enables us to build our hardware ourselves, regardless of

Collect and clean data from any renewable plant or data acquisition system - SCADA, datalogger, database, and third-party services - and aggregate it into a single cloud data hub. Extract and aggregate data regardless of the type of renewable plant, sensor, database, or service.

The OneView ® Portfolio SCADA combines each specific site's Park SCADA system and transforms them into a unified system that can be managed from the headquarter remote control center. With this independent second-level SCADA solution, you can manage several wind, solar, and hydro plants with only one system while also working with high ...
