Quando se investe em Energia solar para agronegócio em Cabo Verde é possível ter autonomia e aproveitar ao máximo o bom custo-benefício. Menos poluente que o uso de ...

In Cabo Verde, the on-grid solar market is expanding significantly. Government initiatives include new solar parks of 3.4 MW of additional solar capacity planned for Santiago, São Vicente, São Nicolau, and Maio, reflecting Cabo Verde's commitment to enhancing its solar infrastructure and energy reliability across the archipelago. 9

UNDP has increased the town's market garden in Simiri by eight hectares and it's benefitted around 420 women and their families. "The installation of the solar panels for the water pumping and the set-up of additional water tanks has generated an increase in agricultural production, and subsequently an increase in food intake.

The market study contains an overview of the still weak solar thermal energy market in Cabo Verde, including chapters on solar water heating, and also on solar thermal drying of agricultural products and solar cooling in Cabo Verde.

Despite its arid climate and limited arable land, Cabo Verde has emerged as a model of agricultural resilience, thanks in part to support from the Food and Agriculture Organization (FAO).

Quando se investe em Energia solar para agronegócio em Cabo Verde é possível ter autonomia e aproveitar ao máximo o bom custo-benefício. Menos poluente que o uso de energia tradicional, o sistema de energia solar no agronegócio garante modernização e conforto e redução da emissão de gases poluentes em Cabo Verde .
