

Can I open the locker by taking photos with my phone

How do I use Google Photos locked folder?

On Google Pixel phones there are two ways to use the Google Photos Locked Folder - you can either save snaps directly to the folder from the Pixel Camera, or you can move existing images or videos to the folder once it's set up. On other Android phones, which will get the feature later this year, you'll only be able to do the latter.

What happens if you forget Google Photos locked folder?

The locked folder in Google Photos is protected by your phone's pin/password/pattern. If you forget that, you'll be unable to access both your device and the locked folder inside the Google Photos app. Regarding your question about what happens to photos and videos in the Google Photos locked folder if you uninstall or delete the app, the passage does not provide an answer to that.

How do I add photos to a locked folder?

And that's it. You can start adding all the photos you'd like to your Locked Folder. If you've already put photos into your Locked Folder, you can always add more by selecting them in the Google Photos app, pressing the three-dot menu button, and selecting Move to Locked Folder.

What happens if I move photos to the locked folder?

Photos that are moved to the Locked Folder from your backed up images will be taken out of the cloud and will not be backed up. When you use the search feature in Google Photos, images in the Locked Folder will not appear. Apps that have access to your device images will be blocked from accessing the Locked Folder.

How do I move photos from my account to the locked folder?

With the Locked Folder set up, you can directly move photos from your account into the Locked Folder. This will automatically delete them from your cloud storage, so they won't be accessible or unlocked, so to speak, on other devices. 1. Access your newly created Locked Folder in Google Photos. 2.

How do I access the locked folder on my Pixel phone?

You can also access the Locked Folder from the camera app on your Pixel phone and then begin to take pictures that will save directly to the Locked Folder. If you're running low on storage and can't rely on the Locked Folder to back up all your files, you can also turn to the best USB-C thumb drives to secure your content.
