

Who is Central Energy AG?

Central Energy AG is an independent, privately owned energy trading company with its head office in Zug, Switzerland. The company has been incorporated in 1997 and ever since has been engaged in trading and shipping of oil products. Recently, activities have been expanded to include biofuels and soft commodities.

Who distributes electricity in Malawi?

Another state-owned company, the Electricity Supply Corporation of Malawi (ESCOM), then distributes the generated electricity. Hydropower provides 99 % of electricity to the national grid, of which the Shire River installed Hydroelectric Power Plants, produce 98 % of it.

Does electricity generation affect health facilities in Malawi?

Suhlrie et al. (2018) demonstrate how intermittent and ineffective electricity generation affects health facilities in Malawi, especially night-time care services. They call for a health-driven wave of investment in energy infrastructure.

How can Malawi improve electricity access & access to clean cooking solutions?

The focus of policymakers in Malawi is on increasing electricity access and access to clean cooking solutions throughout the country. However, there is a specific need in Malawi to address the low ability to pay for electricity in both rural and urban areas to stimulate demand and to support expansion in generation and transmission.

How can Malawi achieve 50 % electricity access by 2030?

The Malawi government should evolve renewable sources covering cogeneration, geothermal, and solar including rooftop PV to enhance energy security by minimizing the use of external resources and optimizing the use of local resources thereby striving to achieve the high scenario of 50 % electricity access by 2030.

What is the average electricity access in Malawi?

Despite recent improvements to electricity access in Malawi, access to electricity remains at just 13.4% of the population (IEA 2020) lower than the Sub-Saharan African regional average of 47.9% (ibid). Figure 1 below sets out the average electricity access (%) in Malawi in the context of Southern Africa, 2010-2020.
