Better Solar Aruba: Free energy for Aruba. High quality solar solutions for a better price. We can implement a complete solar panel solution for your home or business but we can also provide you with Cash & Carry DIY solutions.

Welcome to the web site of Green Solutions Aruba. We provide energy efficient solutions to households and businesses. Our philosophy is to provide a complete consultancy to our clients with a focus on reducing energy consumption and the flow on effects for the environment. Why solar energy?-Clean, renewable energy-Add value to your property

Wernet Solar Solution & Engineering is a company situated in Aruba, Paradera and is specialized in Solar Energy systems for houses and commercial buildings. Our main core business is solar panel installation, but we also sell products which can help you save energy such as LED lights.

Mister Green is 100% focused on solar panel systems. How do solar panels work? Solar panels are made up of photovoltaic (PV) cells which convert sunlight into direct current (DC) electricity, during the day. The electricity is fed to an inverter which converts the electricity into grid-compatible AC power, (which is what is used in your home).

We have installed over 10,000 solar panels in Aruba since Mister Green was founded in 2016. We are proud to be the only company in Aruba that is fully focused on our customers keeping these two things in mind: How can you start saving money as soon as possible? How can we make the transition to sustainable energy, as easy as possible?
