

Cost of 20kw solar system Georgia

How much do solar panels cost in Georgia?

As of October 2024, the average solar panel system costs \$2.63/W including installation in Georgia. For a 5 kW installation, this comes out to about \$13,173 before incentives, though prices range from \$11,197 to \$15,149. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in Georgia?

While a 5 kW system will only cost you \$13,173 in Georgia, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Georgia?

How much does a 20 kW solar system cost?

As we saw, your total installation cost for a 20 kW solar system is \$41,020 after the 30% federal tax credit. Your installation cost might even be lower if your state or utility offers additional incentives, but we won't include those here. For this example, let's say you live in North Carolina, where the average utility rate is \$0.1178 per kWh.

What tax credits do solar panels get in Georgia?

The federal solar investment tax credit (ITC) is the biggest factor reducing the cost of going solar in Georgia. If you install a residential solar panel system by the end of 2032, you receive a federal income tax credit equal to 30% of the system's total cost. That includes equipment, labor and permits.

How much does solar panel installation cost in Atlanta?

For example, prices for solar panel installation in Atlanta start at around \$25,100, while prices in Helen start at \$28,520. The average cost of solar panel installation in Atlanta is \$37,250, with most people paying between \$25,100 and \$49,400. Compared to the average cost of solar panel installation, this is relatively expensive.
