

## Curaçao bosch battery storage system

Will Wärtsilä supply the Caribbean island of Curaçao with a battery energy storage system? WILLEMSTAD.Cura&#231:ao.May 20.2024 (GLOBE NEWSWIRE) -- Technology group

WILLEMSTAD,Curaçao,May 20,2024 (GLOBE NEWSWIRE) -- Technology group Wärtsilä will supply the Caribbean island of Cura?ao with a 25 MW /25 MWh Battery Energy Storage System(BESS).

How will a battery energy storage system benefit Curaçao?

The implementation of a Battery Energy Storage System will allow Curaçao to collect energy from renewable sourcessuch as wind and solar energy and store it using advanced battery storage technologies. This stored energy can be released to mitigate the intermittency of wind power and ensure grid stability.

Who is putting a Bess order in Curacao?

The order was placed by Aqualectra, Curacao's government owned utilities company, and will be booked by Wärtsilä in Q2,2024. The BESS and the GEMS Digital Energy Platform will provide grid stability and reliability, reduce unserved energy and help mitigate the risk of brownouts and blackouts.

When did Aqualectra start negotiating a battery energy storage system?

Negotiations for this Battery Energy Storage System began in Januaryof this year, when Aqualectra's management team traveled to the Wä rtsiliä headquarters in Finland with a vision, firm determination and clear objectives to make it all happen.

Technology group Wärtsilä will supply the Caribbean island of Cura?ao with a 25 MW / 25 MWh Battery Energy Storage System (BESS). The system will enable the expansion of renewable energy capacity and the reduction of carbon emissions, representing an important step towards a sustainable energy future for the island.
