Dyness battery Palau

Who is Dyness battery storage?

Dyness is a Chinese companyheadquartered in Xi'an,the capital of Shaanxi Province. They started manufacturing battery storage solutions for residential use in 2017.

What are the features of the Dyness battery?

There are a number of features of the Dyness battery worth mentioning: With a high operating temperature of between -20 to 50 degrees Celsius, gives you confidence that this battery will work efficiently and reliably in the temperature extremes that commonly occur in the Australian environment.

How do I contact Dyness Digital Energy Technology?

Sales Call: +86 400 666 0655Company Address: No.688,Lupu Road,Guoxiang Street,Wuzhong Economic Development Zone,Suzhou,Jiangsu,China Copyright © 2024 Dyness Digital Energy Technology Co.,Ltd. Powered by Yongsy Sitemap Privacy Policy

How long is Dyness battery warranty?

As per Dyness's warranty documentation, the length of warranty is 10 yearswhich commences from the sales date of the battery. We'd like to note a few points on the warranty: Dyness warrants that the Products retains seventy percent (70%) of the Nominal Energy for ten (10) years from the Invoice Date.

Does Dyness Powerbox have a battery inverter?

The Dyness Powerbox Battery is the company's flagship product in the battery energy market, with a 2.4 kilowatt-hours nominal capacity and a 2.16 kilowatt-hours usable capacity as stated on their datasheet. Also, unlike the Powerwall 2, the Dyness Powerbox doesn't contain a battery inverterand so requires a compatible hybrid inverter to work.

Can Dyness refuse a warranty claim?

Dyness reserves the right to refuse product warranty claims for lacking proper documentation and information. Claims under this Warranty must be made by notifying the Seller from whom Products was purchased within 2 weeks of appearance. It's not clear who the authorised resellers are in Australia for you to make a claim with.

The DYNESS battery PowerBrick module is widely used in energy storage sector. It adopts modular design and can be used for residential applications. The reliable LiFeP04 technology ensures maximum safety and a longer life cycle.
