

Geothermal, hydroelectric as well as solar and wind energy are critical for the stability and regular supply of power in Kenya. We've partnered with both the public and private sectors to produce renewable power energies such as Solar Energy, Wind Energy and Hydraulic Power Energy across the globe.

At ELPEC ENERGY O&#220;;, we pride ourselves on our team's extensive qualifications and experience. Our professionals are certified and have a proven track record in managing and executing complex electrical projects.

Elpec Energy O&#220;; is a company established in 2018 that deals with electrical construction and design. We have A-competence for construction and design and seven professional certificates of a certified electrical engineer.
