

Elsa energy Ivory Coast

Who is Elsa Energy Sdn Bhd?

ELSA ENERGY SDN BHD [200501001718 (678764-M)] is an integrated energy services & digital solution company, with proven track records and strong client-partner network in the region.

Does Ivory Coast have a reliable power supply?

Unlike other countries in sub-Saharan Africa, the Ivory Coast has a reliable power supply in the region, exporting electricity to neighboring Ghana, Burkina Faso, Benin, Togo, and Mali. Ivory Coast aims to produce enough renewable energy by 2030 to reduce its greenhouse gas emissions by 28%.

How much energy does Ivory Coast produce?

Energy in Ivory Coast has a capacity of 2,200 megawatts (MW) energy production. Unlike other countries in sub-Saharan Africa, the Ivory Coast has a reliable power supply in the region, exporting electricity to neighboring Ghana, Burkina Faso, Benin, Togo, and Mali.

Will Ivory Coast achieve 400 MW solar power by 2030?

Ivory Coast aims to produce enough renewable energy by 2030 to reduce its greenhouse gas emissions by 28%. Ivory Coast aims to reach 400 MW in generating capacity from solar power by 2030. The country is building the Boundiali Solar Power Station, which will have a capacity of 37.5 megawatt-peak (MWp).

What is EDF doing to support Ivory Coast's energy transition?

Renewable energy and... As part of its active involvement in supporting Ivory Coast's commitment to the energy transition, EDF is developing an innovative biomass power plant project in partnership with local energy players. Ivory Coast is aiming for an energy mix in which 42% will come from renewable energy by 2030.
