

How long can I rent a battery energy storage system?

Rental periods can vary from a few weeks to even years. With no upfront cost and competitive rental fees, we guarantee that our battery energy storage systems deliver 24/7 round-the-clock reliability and 100% peace of mind.

What are battery energy storage systems?

This data is used for system optimization, maintenance planning, and regulatory compliance. Battery Energy Storage Systems play a pivotal role across various business sectors in the UK, from commercial to utility-scale applications, each addressing specific energy needs and challenges.

What is a containerised storage system?

Containerised solutions range from 30 - 500kW power and 200 - 2800kWh capacity, within 10 - 45ft containers. For even larger storage capacity, multiple containers can be combined and stacked. Your containerised system comes to you with all the necessary systems included, Class 0 fire rated, and fully insulated and lined.

What is a battery energy storage system (BESS)?

By definition, a Battery Energy Storage Systems (BESS) is a type of energy storage solution, a collection of large batteries within a container, that can store and discharge electrical energy upon request.

What is a fully integrated battery storage system?

Our fully integrated, battery storage is a ready-to-install energy system in a standard container. Complete with batteries, inverter, HVAC, fire protection and auxiliary components, all tested by our experts and operated by the smartest software on the market. Single units can be easily combined to deliver more power and energy capacity.
