

As China transitions towards a green and low-carbon energy system, it is crucial to have the support of green finance. In this study, we explore the effects of synergy and ...

Solar; Energy Storage; Battery/Electric Vehicle; Customized; Price Trend. Solar Price; Lithium Battery; ... capacity utilization and production energy consumption through ...

Solar photovoltaic, as a new type of energy, is a clean, efficient energy that China strongly encourages and supports to use. With the proposal of the "Carbon-neutral" and "Carbon-peak ...

This paper selected 74 renewable energy enterprises as samples to evaluate green technology innovation efficiency.<sup>138</sup> The purpose of the study is (1) to <sup>139</sup> evaluate the efficiency of ...

The real innovation efficacy value of Chinese photovoltaic enterprises is then calculated once the influence of environmental parameters on the efficacy of innovation has ...

Definition of main variables. Variables Definition Inno Ratio of PV enterprises" R& D investment to the fixed capital (%) RDSub Logarithm value of GSs that PV enterprises received for R& D incentive ...

This has resulted in the alternating development of Chinese photovoltaic industry production enterprises and power generation enterprises, because local governments are more inclined to support production ...

Academic Journal of Business & Management ISSN 2616-5902 Vol. 4, Issue 19: 112-118, DOI: 10.25236/AJBM.2022.041914 ... In terms of financing efficiency of photovoltaic enterprises, ...

As a result, photovoltaic solar energy has become ubiquitous, representing a major source of renewable energy (see the monograph [4] and the articles [5,6,7,8,9] for further discussion and ...

The availability of energy and water sources is basic and indispensable for the life of modernistic humans. Because of this importance, the interrelationship between energy derived from ...

In order to improve the control capability of distributed photovoltaic support, a distributed photovoltaic support consumption method based on energy storage configuration mode and random events is proposed. ...

1. Introduction 1.1. Background. With the intensification of energy shortage and environmental pollution, renewable energy has attracted worldwide attention [1 - 4].The solar ...
