

Energy Solutions Initiative is primarily aimed at small and medium-sized enterprises (SMEs) and supports suppliers of climate-friendly energy solutions in finding new markets abroad. The initiative is active in around 140 countries and aims to disseminate German and European energy technologies more extensively across the globe.

Our mission at Zerosol is to drive the adoption of zero carbon emission solutions in Ghana and West Africa by offering comprehensive services and products that empower businesses and projects to transition in a sustainable and cost-effective manner.

We provide engineering, logistics, and support services to companies in the down, mid, and upstream sectors of the oil and gas industry, driving forward energy solutions to power the growth and transformation of businesses in Ghana and Africa.
