

The goal of the Call is to facilitate the deployment of 20MWh of energy storage and 80MW of renewable energy projects. It is also targeting energy efficiency projects totalling 140,000MWh of energy a year, and has the ...

ATESS has made substantial strides in supporting Croatia's industrial sector with cutting-edge energy storage solutions. By implementing energy storage systems across four diverse factories, ATESS is addressing key challenges and aligning with Croatia's energy transition goals.

Croatia got the green light from Brussels to give a EUR 19.8 million grant to a domestic startup for a massive energy storage project. IE-Energy is planning to build a battery system of 50 MW, which means it would ...

In order to strengthen energy security and reduce energy imports from third countries, Croatia is exploring the possibility to increase the production of domestic hydrocarbon resources. At the same time, Croatia also has plans to diversify natural gas supply routes by constructing an LNG terminal on the island of Krk.

Croatia got the green light from Brussels to give a EUR 19.8 million grant to a domestic startup for a massive energy storage project. IE-Energy is planning to build a battery ...

The European Commission has approved, under EU State aid rules, a EUR19.8 million Croatian aid measure in favour of energy storage operator IE-Energy d.o.o. ("IE-Energy"). The measure is aimed at helping IE-Energy to partially finance the procurement and the installation of grid-scale batteries to provide transmission system operators ...

ATESS has made substantial strides in supporting Croatia's industrial sector with cutting-edge energy storage solutions. By implementing energy storage systems across four ...

Croatia got the green light from Brussels to give a EUR 19.8 million grant to a domestic startup for a massive energy storage project. IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe.

Addressing a news conference at which the EIB presented its results in Croatia in 2021, Pascenco said that there was great potential for the construction of renewable energy ...

Central and Eastern Europe (CEE)-based developer and independent power producer (IPP) Woodburn Capital is deploying a co-located battery storage project in Croatia, with final regulations around connecting ...

Croatia will provide some EUR500 million (US\$534 million) in subsidies for battery energy storage system

(BESS) technology, a government minister has said. Minister of Economy and Sustainable Development Damir Habijan revealed the funding, part of a larger EUR1.6 billion for energy projects, at the JANAF conference in Zagreb earlier this month ...

Central and Eastern Europe (CEE)-based developer and independent power producer (IPP) Woodburn Capital is deploying a co-located battery storage project in Croatia, with final regulations around connecting batteries to the grid expected imminently.
