

How do I make an export declaration on the customs declaration service?

Follow these steps when preparing to make an exports declaration on the Customs Declaration Service. Begin with the relevant Declaration Category Data Set table in Appendix 22 for the type of declaration being made, for example, Appendix 22A: Declaration Category Data Sets B1 for a Standard (Re)export declaration.

What are the CDs declaration completion instructions for exports?

The CDS Declaration Completion Instructions for Exports provides general completion rules for each data element under the 'All Declaration Categories' section. This section provides the general information on completing the declaration for that data element.

Does this guide cover completion instructions for import customs declarations & CCRs?

This guide does not cover completion instructions for import customs declarations or Customs Clearance Requests (CCR) inventory releases previously referred to as C21s). For data element completion guidance for imports and CCRs, please refer to the appropriate Declaration Completion Guide.

What is a G100 Product Declaration?

Manufacturers G100 Product Declaration The (enter product name here) complies with the Energy Networks Association, Engineering Recommendation G100 Issue 1 Amnd 2 2018, Technical Guidance for Customer Export Limiting Schemes, when installed in accordance with this Engineering G100 application guide.

How do I fulfil S&S requirements on exports?

The requirement for S&S information on exports can be fulfilled via the customs export declaration, which contains information to fulfil both fiscal and S&S requirements. Where an export declaration is not submitted pre-departure, a standalone exit summary declaration (EXS) may be needed.

Will storage become a key part of UK and Ireland's energy infrastructure?

We expect storage projects to exponentially grow over the long term and become a key part of the UK and Ireland's energy infrastructure. Ofgem has approved modifications removing the exclusion of storage at transmission voltages (GCode). Storage now falls under Generation within the Distribution Code (DCode).
