project scope. The Project will be connected to the national grid with the Government of Uruguay at the Casa Blanca Substation. The concession issued by the Government of Uruguay allows for production up to 75 MW. Two PPAs have been awarded for the development of the Projects; a 32 year PPA for the Casa Blanca projects and a 30 year

El objetivo del trabajo es presentar los datos del mapeo cuantitativo sobre las distintas experiencias que conforman el campo de la Economía Social y Solidaria (ESS) en el Uruguay contemporáneo. Se discute y define conceptualmente la diferencia entre

In September 2022, Uruguay announced that it plans to update Decree N° 27/020, which will authorize low-voltage consumers to reinject energy into the grid via batteries, as long as the annual balance is zero. In other words, as much power as injected must be consumed, which limits arbitrage and the profitability of stand-alone BESS projects.<sup>6</sup>
