How can exagen create a legacy?

Creating a legacy needs a long-term view, it means being hands-on and putting people at the core. Our end-to-end approach means Exagen are on the ground every step of the way, developing, building and operating with the future in mind.

Our end-to-end approach means Exagen are on the ground every step of the way, developing, building and operating with the future in mind. Using in-house technology to inform and streamline each development phase, we minimise risk and maximise production to ensure our projects ...

Exagen Group, a significant player in the UK solar and energy storage sector, has received a full buyout from British energy titan Octopus Energy Generation. The 100% equity buyout, which was carried out on behalf of the Octopus Energy Development Partnership (OEDP) fund, managed by Octopus, follows an August 2022 investment by Octopus in ...

Octopus Energy Generation has completed a full acquisition of UK renewables developer Exagen Group, enhancing its support for Exagen's growth and project development. This buyout follows Octopus's initial 24% stake purchase in August 2022.

Octopus Energy Generation has completed the full acquisition of UK-based renewables and energy storage developer Exagen Group from its founder, Jeremy Littman. Exagen's development pipeline features more than ...

Octopus Energy Generation has completed the full acquisition of UK-based renewables and energy storage developer Exagen Group from its founder, Jeremy Littman. Exagen's development pipeline features more than 2.4GW of solar and energy storage initiatives throughout England.

Exagen Group, a significant player in the UK solar and energy storage sector, has received a full buyout from British energy titan Octopus Energy Generation. The 100% equity buyout, which was carried out on behalf ...

Our end-to-end approach means Exagen are on the ground every step of the way, developing, building and operating with the future in mind. Using in-house technology to inform and streamline each development phase, we minimise risk and maximise production to ensure our projects benefit business, the environment and community life for years to come.

The unique strengths and values of Exagen are replicable globally and this drives our overseas ambition. We're excited to see the amplification of our mission into new markets in the near future. The energy market is undergoing significant change, partly driven by economic and geopolitical events but also by government to achieve net zero ...
