New Caledonia is a French territory made up of a group of islands and archipelagoes of Oceania, located in the Coral Sea and the South Pacific Ocean. It has a wide lagoon often considered &quot;the most beautiful lagoon in the world&quot;. The territory is also distinguished by biodiversity of astonishing richness and originality: the rate of endemic species is the highest in the world.

The Energy Transition Plan (STENC) defines New Caledonia's energy strategy for 2030. Adopted in June 2016, it constitutes the policy framework applicable until 2030. the STENC is structured around three main components: an extensive energy saving program, development of renewable energy to improve New Caledonia's energy self-sufficiency and a ...

La prima volta che abbiamo visto il Flatiron Building &#232; stata nel 2010: era il nostro primo viaggio a New York e ancora non sapevamo di trovarci in quello che col tempo sarebbe diventato il nostro quartiere preferito della Grande Mela. S&#232;, perch&#232; intorno a questo strano grattacielo dalla forma di ferro da stiro si trova al centro di un'area - il Flatiron District appunto ...

Several investigations have been conducted since the 1970s on the nature and composition of ferro-manganese crusts from New Caledonia's seamounts and ridges, but none have covered the entire EEZ. We present data from 104 ferromanganese crusts collected in New Caledonia's EEZ during twelve oceanographic cruises between 1974 and 2019.
