SunTerra is transforming solar energy beyond intermittent and disruptive making it useable, available, and dispatched when electricity customers need it most. SunTerra has examined the needs of each and every Island within the Caribbean and come up with a plan to help them meet or exceed their energy goals.

Our business model is straight forward: we directly invest in and operate impact orientated solar energy producing assets. These can be replicated across the entire Caribbean, typically working in partnership alongside administrators and leadership teams to provide the support that is essential to realizing great success.

Caribbean sustainability is paramount to SunTerra and why we generate energy that produces no greenhouse gas emissions from fossil fuels and improves air quality. Leading industry by pursuing excellence and innovative solutions, demonstrating the highest standards, leveraging experience and unlocking hidden potential to create a more efficient ...
