Abstract - Developing island economies, such as French Polynesia, are heavily reliant on imported goods. Shipping materials around the world is very energy intensive and contributes to global environmental

pollution. A system for the local manufacturing of sustainable building materials offers numerous environmental and economic incentives.

The Brando. The Brando - While long haul travel certainly bears an environmental footprint, staying in the Brando Resort in the Tetiaroa Atoll is as guilt-free as it gets. Having been established by the legendary actor Marlon Brando, the resort features cutting-edge technology and practices, including solar energy, seawater air-conditioning, and a ...

has developed a research project on the " Sustainable development of pearl farming". Its aim, in accordance with pearl farmers concerns, is to propose methods and tools that will increase superior pearl quality production and intend to support the sustainable development of pearl farming in French Polynesia. Researches are organized in 3 axes:
