

French solar company Cabo Verde

We operate 595 solar power plants, with a total capacity of 578 MW (including 314 MW in France), and 8 biogas units in the heart of our regions. CVE plans to multiply its capacity by 5 to reach 3.6 GW in 2028. For its biogas business, CVE aims to operate 60 units by 2030, producing 1.5 TWh/year of biomethane.

As part of the call for bids "Innovation pour l'Accès à l'Energie Hors Réseau" led by the French Environment and Energy Management Agency (ADEME). The company OSMOSUN specializes in innovative solution for desalination of local seawater or brackish water resources using solar energy.

A energia solar pode diminuir o custo da eletricidade e contribuir para a competitividade das empresas industriais que lutam com contas de eletricidade caras. Nossa equipe pode oferecer um design otimizado para combinar o consumo com a geração de energia solar e rentabilizar ao máximo seu sistema.

CVE is an independent French producer, headquartered in Marseille in the south of France. The group is present in countries that encourage the production of distributed generation in short circuits, through PPAs, self-consumption or government incentives.

In Cabo Verde, the on-grid solar market is expanding significantly. Government initiatives include new solar parks of 3.4 MW of additional solar capacity planned for Santiago, São Vicente, São Nicolau, and Maio, reflecting Cabo Verde's commitment to enhancing its solar infrastructure and energy reliability across the archipelago. 9
