

June 10 (SeeNews) - China-based Shunfeng International Clean Energy Ltd (HKG:1165) said Wednesday it has agreed to develop solar photovoltaic (PV) and other clean energy projects in French Polynesia.

"Thanks to the integration of the battery-storage system with a capacity of 2.6 MWh, 60% of the electricity supply now comes from solar energy. The island's grid quality was also improved once ...

SMA Solar Technology AG and its subsidiary SMA Sunbelt Energy GmbH have installed French Polynesia's first integrated PV-plus-storage project. The project features an output of more than 1MW on the island of Tetiaroa, with 60% of the island's electricity demand covered following the completion of the installation.

Le 10 mars, les noms des 4 lauréats de l'appel à projet lancé en avril 2021 pour la réalisation et l'exploitation d'installations photovoltaïques avec stockage ont été annoncés. Ce sont les projets Mahana O'Huie du groupe Siu, Manasolar du groupe Moux, ainsi que deux projets de la société Engie Renouvelables Polynésie qui ont été retenus.

Approximately 6% of primary energy in French Polynesia is generated from renewable energy sources. [1]  
Approximately 30% of electricity is generated renewably, primarily Hydroelectricity and solar power. [1]  
Renewable generation is concentrated on Tahiti, with other parts of French Polynesia almost entirely reliant on fossil fuels. [2]

Our study demonstrates the potential of solar energy in insular regions, such as Tahiti, and highlights the importance of accurate solar energy forecasting for optimizing energy ...

Lors de sa visite officielle en Polynésie française en juillet 2021, le président de la République Emmanuel MACRON a annoncé la création d'un fonds de transition ...
