

Genyx system Nauru

GENYX provides world-class on-and-off-line assessments of individuals and teams using psychometric evaluations. We believe that individuals who understand their strengths and preferences are more engaged, flexible, collaborative, connected and productive.

GENYX is a consulting company that advises and guides global and regional brands in implementing business strategies, aligning and developing leaders, and engaging teams and customers. GENYX partners with companies to reach their full potential by enabling leaders and teams to understand their organization's aspirations and connecting ...

Genex Systems provides cutting edge scientific and engineering research support services to various government agencies, including the Federal Highway Administration's Turner-Fairbank Highway Research Center (TFHRC), where our expertise improves highway and bridge systems through the use of experimental and analytical studies, both in the laboratory and in the field.

the GENYX/TL system is developed on PC-PLC commercial hardware, easy to find and service. The powerful and completed software that supervises and controls the plant is WINDOWS native, to make it compatible and installable with the most widespread operating system on the market.

We curate equipment working in partnership with the main manufacturers in the photovoltaic sector. We offer the 3 main inverter topologies and the best cost benefit in solar kits, serving integrators throughout Brazil through the GENYX Platform for projects and budgets. This is the GENYX way: Partner, technical and open to novelty!

Genex Systems provides a wide-range professional Engineering & Scientific Research services to Government, Academia, and Industry. Our fields of expertise include aerodynamics, seismic, hydraulics, computational fluid dynamics, acoustics, systems engineering, and ...

We operate with a baseline of proven processes and procedures that have been appraised to CMMI DEV Level 3, and we monitor our performance via a corporate quality control system that has been certified to meet the requirements of the ISO 9001:2015 standard.
