

Goal zero nomad 50 Paraguay

What is a Goal Zero Nomad 50W solar panel?

The Goal Zero Nomad 50W solar panel is a 4-panel portable solar panel that receives power from the sun. It offers mobility for easy and convenient traveling and lets you solar charge power banks and power stations to keep laptops charged, run portable fridges, and power essential electronics.

Can I charge my Yeti with the Nomad?

The Nomad solar panel is designed to charge the Yeti battery and should not be used to charge devices directly, as it does not contain a charge controller. Charging a phone directly with the Nomad will ruin the battery.

Can the Nomad 50 charge a Goal Zero Sherpa 100AC?

Yes, the Nomad 50 can charge a Goal Zero Sherpa 100AC in 3-6 hours.

Can a Nomad 50 charge a 12V battery?
