

Greensmith energy storage Turks and Caicos Islands

Technology group Wärtilä has signed an agreement to purchase US-based energy storage solutions provider Greensmith Energy Management Systems for an undisclosed sum. The acquisition will help Wärtilä expand its business and function as a global energy systems integrator.

Greensmith will offer stand-alone energy storage as well as hybridised energy systems, besides control software and integration expertise. This deal enables Wärtilä to bolster its footprint in the energy storage market across the world.

AltaGas turned to Greensmith to design, deploy and commission a system, and we drew on our team's track record of designing safe, flexible, software-driven energy storage systems. Our speed doesn't come ...

This latest energy investment, which began in 2022, is in line with the Resilient National Energy Transition Strategy (R-NETS), which was approved by the Turks and Caicos Islands government. It provides an additional 9.373 megawatts of electricity generating capacity to Providenciales and the North and Middle Caicos grid via a subsea cable.
