Greenstat solar Bosnia and Herzegovina

Does Bosnia have solar power?

Bosnia's Foreign Investment Promotion Agency said it has successfully pitched the municipality of Grude to Norwegian renewables developer Greenstat. Bosnia and Herzegovina had around 53 MWof grid-connected solar at the end of 2021,according to IRENA. Image: NASA Goddard Space Flight Center/Flickr

Who is attracting foreign investment to Bosnia & Herzegovina?

The government agencyresponsible for attracting foreign investment to Bosnia and Herzegovina has successfully pitched the municipality of Grude to Norwegian renewables company Greenstat. Bosnia's Foreign Investment Promotion Agency (Fipa) said last week that the Bergen-based developer has started working on the 45 MW Petjnik solar plant.

When will FIPA's greenstat project start?

Fipa said construction will begin in June, with panels to be installed from the first quarter of 2023. The site will be commissioned at the end of 2023. Fipa said civil engineer GP Toming, based in Grude municipality, is working on the project with Greenstat.

Greenstat Solar owns and operates solar power plants both in Norway and overseas - and in particular the 45 MWp Petnjik solar power plant in Bosnia-Herzegovina. Greenstat Solar has partnered up with GP Toming D.O.O. to ...

Greenstat is pleased to announce the latest update from its PV plant Petnjik in Bosnia-Herzegovina. The project is progressing ahead of schedule, with the installation of the first 3000 panels completed in the first week of the plant installation.

The Petnjik Solar PV Plant, with an installed capacity of 45 MWp and an estimated output of 64 GWh, is the largest solar power plant built so far in Bosnia Herzegovina. The project is a collaboration between GP Toming from Bosnia Herzegovina and Greenstat in ...

Greenstat's first solar plant in Bosnia Herzegovina has reached an important milestone. Greenstat, GP Toming and invited guests marked the transition from the construction phase to the test phase for the Petnjik Solar PV Plant on 29 August.

The testing phase has started for the first large solar power plant in Bosnia and Herzegovina. The Petnjik facility in Grude has 45 MW in peak capacity. Greenstat''s first solar power plant in Bosnia Herzegovina has ...
