Premier says exploration offshore Mauritania has focused on re-evaluating and prioritizing the prospect portfolio. One or more exploration wells could be drilled in 2008 dependent, largely, upon rig availability. In Guinea Bissau, Premier drilled two exploration wells, Eirozes-1 and Espinafre-1Az.

Offshore Guinea-Bissau is due to see some potentially transformative exploration drilling in the new future, and this drilling can have a great role in reshaping the energy sector in the West African country.
