

What is a warranty for battery energy storage systems?

Warranties for Battery Energy Storage Systems (BESS) provide mechanisms for buyers and investors to mitigate the technical and operational risks of battery projects, by transferring the risk of defects or performance issues to the manufacturer or the battery vendor.

How long do energy storage systems last?

Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more. As a manufacturer and system integrator you have to provide your customers with warranties.

Why do you need warranty insurance for your energy storage system?

Our warranty insurance solutions help to secure your sustainable business in the long run. Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more.
