

Hand-cranked solar power mobile phone case

What is the best solar phone case?

The Blavor Qi-enabled power bank is the best solar phone case on our list. It is compatible with the iPhone XR/XR MAX/XS/X/8/8plus, Samsung Galaxy S9/S9 Plus S8/S8 Plus, and all Qi-enabled mobile devices, giving it great utility. Being Qi-enabled means that the power bank can charge any phone with a wireless charging option.

What is a solar powered phone case?

Using the same technology that is used in normal solar panels, a solar powered phone case is basically a mini solar panel that is integrated to your phone case. Photovoltaic solar panels convert light energy into electrical energy, so that you can charge your phone with the solar powered case.

Which solar charging case is best?

Tough, waterproof, usable with most phones, and with some handy extras, the Blavor phone case is an excellent choice for keeping your phone protected and charged. Another solar charging case with Qi wireless technology, the 2BConnect Solar Charger Power Bank can charge any Qi-compatible device.

What should I consider when buying a solar phone case?

Another important factor to consider when buying a solar phone case is the charging capacity of the power bank. You want to make sure that the power bank is large enough for your needs. This means taking into account what you usually use your phone for and how much battery life it drains.

What is a Kepswin solar phone case?

With a 20000mAh high capacity mobile battery and four 5V USB ports, the Kepswin solar phone case means you can charge multiple devices simultaneously. This power bank is compatible with iPhone, Samsung, HTC, Nexus, tablet, and other micro-USB devices. Made of durable and reliable ABS/PC/Silicone material, the case is IPX4 waterproof and dustproof.

How long does a solar case take to charge?

Wait 30-60 minutes for a quick solar recharge to power 1-2 hours of use. The case can be separated from your phone for remote charging nearby. Transfer solar energy from your case battery to your phone whenever you like. 98% of the energy collected will be transferred to the case's battery. A pioneering father with four daughters.
