

Hdr power systems Nauru

Who are HDR's application engineers?

HDR's application engineers have over 50 years of combined experience in the power controls industry. They have encountered and solved a variety of technical problems involving process power distribution, harmonics filtering, and power factor corrections.

Who is Ametek HDR power systems?

Experience: AMETEK HDR Power Systems has experience in developing custom rectifiers for the electro-chlorination process. Also, AMETEK HDR's Columbus, OH location is a UL508A shop that can design and manufacture power products for the hazardous location and certify them to Class 1 Div 2 / Zone 2.

What types of controls does HDR offer?

HDR offers the broadest selection of standard controls with UL, CSA, cUL and CE Approvals. We also offer many custom designs and options. Typical applications include: kilns and ovens, environmental chambers, extruders, molding equipment, autoclaves, furnaces and dryers.

What products does Ametek HDR offer?

AMETEK HDR has a suite of product portfolio including SCR, PWM and VRT that can be deployed for the electro-chlorination / electrolysis process depending upon specifications and customer requirements.

What are Ametek HDR panelboards and switchboards?

Ametek HDR panelboards and switchboards are custom designed to meet our customer application requirements. This high level of engineering innovation provides flexibility of circuit arrangement and allows system coordination with balancing of the electrical loads.

AMETEK HDR is a recognized world class manufacturer of electronic equipment for specific markets and special applications. Our SCR Power Controls are high quality, industrial grade products designed to operate reliably for many years in process environments.

HDR's application engineers have over 50 years of combined experience in the power controls industry. They have encountered and solved a variety of technical problems involving process power distribution, harmonics filtering, and power factor corrections.

Ametek HDR Power Systems is a recognized industry leader providing process control solutions to a broad spectrum of industrial markets. Our focus is to help our clients grow and succeed. We accomplish this through the quality design and manufacture of system solutions that include: SCR POWER CONTROLS; MULTI-ZONE POWER CONTROL SYSTEMS; CUSTOM ...

HDR's design solutions advance development of the power infrastructure that serves as the backbone of our

Hdr power systems Nauru

energy grid. Our team of industry-recognized experts collaborate to design renewable energy projects from solar, wind and hydropower sources, complex transmission and distribution infrastructure and infrastructure to support the transition ...

AMETEK HDR offers both SSR and SCR Zero- and Phase-Fired power controllers up to 1200-Amps as well as DC power sources from 50 kW to 1 MW. AMTEK controllers are high quality, industrial grade products that are designed to operate ...

We offer both SSR and SCR Zero- and Phase-Fired power controllers up to 1200-Amps as well as DC power sources from 50 kW to 1 MW. Our controllers are high quality, industrial grade products that are designed to operate reliably for many years of trouble-free service.

We provide zero- and phase-fired, single-phase and three-phase controls from 15 to 1200 amperes for all standard voltages. HDR offers the broadest selection of standard controls with UL, CSA, cUL and CE Approvals. We also offer many custom designs and options.

Ametek HDR Power Systems is a recognized industry leader providing process control solutions to a broad spectrum of industrial markets. Our focus is to help our clients grow and succeed. We accomplish this through the quality design and manufacture of system solutions that include:

- o SCR POWER CONTROLS
- o MULTI-ZONE POWER CONTROL SYSTEMS
