

Hikvision solar panel fixing bracket

What is a Hikvision solar power kit?

Hikvision Solar Power Kit can power a variety of products, save time and money on system design and installation, and quickly build a solar system. The Hikvision Solar Power Kit composes of a solar panel, a battery box and a bracket, and it offers:

Why should you choose Hikvision's solar-powered cameras?

With Hikvision's solar-powered cameras, you can enjoy a streamlined deployment process that saves time and effort. By consolidating the components, these cameras provide a convenient and efficient solution, making it easier than ever to establish a robust security system.

What is a solar-powered kit?

Hikvision's Solar-Powered Kit can power a variety of products, save time and money on system design and installation, and quickly build a solar system. It consists of a solar panel, a battery box, and a bracket, and it offers:

How does Hikvision work?

Hikvision's solar-powered camera setup helps farmers keep an eye on trespassers and get alerted when livestock wander away. Festivals may last for days, but are mostly once-per-year events. Video security is needed here, but conventional installations can be uneconomical and inefficient.

How does Hikvision protect your property?

Highways may stretch to rural and remote lands where on-site inspection can be very costly. However, infrastructures like highways are prone to vandalism and theft. Hikvision's solar-powered camera setup works as a guard, tirelessly looking after the property and ensuring their functioning.

What are solar panel brackets used for?

These solar panel brackets can be used with options to allow our customers to either select the bracket on its own or in box quantities. We can supply the brackets with industry standard stainless steel fixing screws along with a flashing kit to stop the ingress of water.
