

How does Trina Solar Panel rank in the country

How did Trina Solar boost its global rankings?

Trina's Vertex high-power module helped boost the manufacturer up the global rankings. Chinese solar manufacturer Trina Solar has published an impressive set of annual figures amid the Covid-19 economic carnage of 2020.

Is Trina a stable solar company?

PV module shipments hit 15,915 MW, slightly more than the figure recently posted by domestic rival JA Solar, to lift Trina to number three worldwide, behind Chinese peers Longi and Jinko. Trina has a claim to be the most stable business, in terms of shipment volume, as it has been ranked in the world's top five since 2010.

Is Trina Solar a good brand?

Trina Solar competes with some of the top brands on the market, but they're not number one in any category. Trina Solar does everything pretty well (efficiency, temperature coefficient, warranties, price, etc.), but there's usually a premium solar panel brand that does it better.

Is Trina Solar a Tier 1 PV module maker?

Trina Solar has once again made it to the list of Tier 1 PV module makers in the Bloomberg New Energy Finance (BNEF) market outlook for the second quarter, thanks to its outstanding reliability, 100% bankability, and expanding production capacity.

Why is Trina Solar a Tier 1 brand?

Trina Solar's continued presence on the Tier 1 list demonstrates global industry recognition for its quality modules, brand credibility, and strong market competitiveness. Reliability: Passing rigorous tests of PVEL and RETC

Where are Trina Solar panels made?

By the end of April 11th, 2022, their annual production capacity cumulative shipments of PV modules had exceeded 100GW. Trina has 3 manufacturing plants located in China, Thailand and Vietnam, it is reported that they have a 50GW+ company-wide production capacity. This makes them a top 5 solar panel manufacturer globally.
