

# How many people install photovoltaic panels

How many people in the UK want solar panels?

Around two-thirds of adults in the UK want solar panels, according to the latest studies. 66% of people living in owner-occupied homes either have solar panels or will probably consider installing them in the next few years, the government's 2023 survey showed.

How many UK homes have solar panels?

There are more than 1.3 million UK homes with solar panel installations, according to the latest MCS data. This means 4.1% of the 29 million homes in the UK are generating electricity from solar panels. There's definitely room for improvement here. Still, these stats show a huge uptick from where solar panels were just over a decade ago.

How many solar PV installations are there in the UK?

The total installed solar photovoltaic capacity across all constituencies in the UK is 5,024.3 MW. 1,404,409 domestic solar PV installations across the UK contribute to this figure. South Cambridgeshire has the highest installed capacity, at 27.6 MW, but Torridge and West Devon follow closely, with 23.1 MW each.

How many homes are generating electricity from solar panels?

Of those, at least 519,409 were residential installations, meaning less than 2% of the 28 million homes in the UK are generating electricity from solar panels - a figure that will hopefully continue to increase as solar panels get more affordable in the coming years.

What percentage of new solar panels are installed in residential buildings?

In February 2024, 83% of new solar systems were installed in residential buildings, accounting for 77% of the new capacity or 46 MW. More people are turning to solar PV to generate their power at home as electricity prices continue to rise.

How many solar panels were installed in 2023?

Data on solar PV deployment also shows that 191,524 installations came online in 2023, the second-highest number in any year, exceeded by 2011 only. Such trends show the public's growing trust in solar technology and the country's commitment to increased adoption of renewable energy. Related solar guides: How many solar panels do you need?
