

How to complain about people around you installing solar panels

How do I make a complaint about a solar installation?

When making a complaint it is useful to have the following information: The date of installation may be present on installation paperwork and may also be on the energy efficiency measure, such as the loft installation, the boiler, or the Solar PV inverter. Please contact the ECO team (ECO.SAR@ofgem.gov.uk) to raise a Subject Access Request.

What should I do if my neighbours oppose solar panels?

The first step in addressing any objections is to talk to your neighbours and try to understand their concerns. Some common concerns that neighbours may have about solar panel installations include: Visual impact: Neighbours may be concerned that the solar panels will be unsightly and reduce the aesthetic appeal of the neighbourhood.

Can I claim my solar panels if they go out of business?

So, if you funded your solar panels via a loan, credit agreement or by credit card, you may still be able to make a claim even if the original installers have gone out of business.

Can a neighbour object to a solar panel installation?

If your installation falls within certain parameters, your neighbours won't have any grounds to object. However, if your installation falls outside these parameters, your neighbours may have valid reasons for objection. There are certain parameters that solar panel installations must adhere to in order to be considered a 'permitted development.'
