

How to replace a small solar bracket with a large barrel

I did some research on how making DIY rain barrel reservoirs and settled on a design pattern I liked. A rain barrel reservoir is a very simple way to collect and store rainwater ...

There's a small retaining screw or two that needs to be tightened to keep the inverter secured to the mounting bracket once it's tightened down. Be sure you don't miss that step. Once the inverter is secured to your ...

3M DUAL LOCK. 3M Dual Lock is like heavy duty Velcro, clear in color and designed to stand up to extreme temperatures and wind outdoors. It comes in "mated pairs", 1" x 1/2" with one side ...

The arbor will be loose and able to come right out of the barrel. Now all you have is a barrel with a broken spring in it. I have used this method when a winder is not available to remove an old spring: I hold the barrel tight with a towel wrapped ...
