

Following its unique vision -- building a data-centric, trustworthy storage foundation for diverse applications -- Huawei OceanStor storage unlocks new levels of intelligence and power, which lie inherent in data, helping ...

Videoloft is a true cloud solution, it transmits and stores video via the cloud - so if your recorder is compromised your recorded footage is still accessible via the Videoloft cloud. The Dahua ...

Cloud energy storage (CES) in the power systems is a novel idea for the consumers to get rid of the expensive distributed energy storages (DESSs) and to move to using a cloud service centre as a virtual capacity.

The key to data flow is that data can be classified into hot and cold data within an enterprise data center, and also that data can also be easily transferred and backed up by this classification ...

With the new round of power system reform, energy storage, as a part of power system frequency regulation and peaking, is an indispensable part of the reform. Among them, ...

Dedicated Distributed Storage Service (DSS) provides you with dedicated, physical storage resources. By flexibly interconnecting with various computing services, such as ECS, BMS, and DCC, DSS offers first-class performance in ...
