An energy storage system with higher energy density is needed in the 5G era. Intelligent lithium batteries that combine cloud, IoT, power electronics, and sensing technologies will become a ...

For a good ten years, China-based Huawei Technologies Ltd has been building its brand in Trinidad and Tobago, promoting information and communication technology and doing good business,...

Though an ever-growing competitor in the Trinidad and Tobago and global mobile phone market, Huawei has also expanded its telecom solutions products and services, with clients including TSTT and Digicel, government enterprises, and tens of thousands of individual corporate and private citizens.

An energy storage system with higher energy density is needed in the 5G era. Intelligent lithium batteries that combine cloud, IoT, power electronics, and sensing technologies will become a comprehensive energy storage system, releasing site potential.

If someone posts one of those annoying selfies on social media, while pouting on a rock somewhere on Trinidad's North coast, you can go ahead and blame the technology perfected by the engineers...

Contact Solar Energy Caribbean for expert solar and EV charging solutions in Trinidad & Tobago T& T. Whether you need solar panel installation, battery storage, or EV chargers for ...

It is, in short, hard to reconcile Huawei's hopeful expectations of the TT market with the demonstrated reality of a pronounced aversion to define clear goals for local digital development, set timelines for them and then report transparently on progress.

FOR two decades Huawei has been in the Caribbean and Latin American region, and for 17 years it has been in TT, working in the background and assisting Trinidad and Tobago with connectivity and technology.

Trinidad and Tobago has received yet another notch in its belt and is one step closer to becoming a technologically developed nation, thanks to a tripartite agreement between The University of the West Indies (UWI) St. Augustine Campus, bmobile and Huawei for a state of the art Innovation Lab.
