operating through IPP arrangements, delivering a reliable and affordable power supply to businesses and everyday Papua New ...

PNG has one of the highest rates of power outages in the world but the world's highest power prices, paying twice as much as Australians. PNG's State Owned Enterprise Minister William Duma issued a parliamentary plea to address the prices less than a year ago.

4 ???· Marape told the conference the government wants a private investor committed to delivering "cheaper, reliable, and cleaner power" for the people of Papua New Guinea. The ...

Papua New Guinea announced the PEP in 2018, when PNG hosted the Asia-Pacific Economic Cooperation (APEC) Leaders' Summit in an effort to showcase the country as an ideal business and investment destination.

4 ???· At the 2024 Investment Conference in Sydney, Australia, Prime Minister James Marape unveiled a transformative decision set to impact Papua New Guinea's energy and economic sectors. Speaking before an audience of investors and industry leaders, Marape announced plans to partially privatize PNG Power, the country's national power authority.

4 ???· Marape told the conference the government wants a private investor committed to delivering "cheaper, reliable, and cleaner power" for the people of Papua New Guinea. The partial privatisation of PNG Power aligns with broader efforts to modernise the country's infrastructure and address long-standing inefficiencies in public service delivery.

An end state - indeed an optimistic overall outcome - could be a future where PNG's 19 mini-grids are operating through IPP arrangements, delivering a reliable and affordable power supply to businesses and everyday Papua New Guineans to alleviate the effects of energy poverty.
