

# Incentive policies for household solar power generation

Are there government grants for solar panels in the UK?

There are several government grants for solar panels in the UK, promoting the use of renewable energy sources and helping decrease carbon emissions. The EU's Renewable Energy Directive set out for all member countries to reach a 32% renewables target before 2030.

How much money can you save with solar panels?

The average home can save more than £1,100 every year with solar panels! There are several solar panel grants and incentives currently available in the UK, aimed at reducing the cost of solar panels, your households' energy bills and encouraging the adoption of renewable energy. How much could you get?

What does a solar panel grant cover?

Solar grants often only cover specific solar energy system components such as solar panels, inverters and installation costs. Battery storage or advanced monitoring systems are typically excluded from these funding programmes. How much can I save with a solar panel grant?

Should you apply for a solar panel grant?

By applying for a solar panel grant, you could receive heavily discounted or even free solar panels, resulting in annual energy bill savings upwards of £1,040. We recently conducted a survey of over 1,540 Independent readers who own solar panels\* to understand how they made the most of the solar panel funding available to them.

What happens if a UK solar panel grant expires?

Several UK solar panels grants have recently expired. In most cases, the schemes had fixed durations or budgetary limits - once a certain date was reached or the available funding ran out, the grant was closed to new applicants. The following are some examples of recently expired schemes:

How do I qualify for free solar panels in the UK?

You may qualify for free solar panels if you're eligible for one of the UK's four main grants. However, two of these grants are only available in England, one can only be accessed in Wales, and all of them come with stringent qualifying criteria that target the most deprived households.
