

# Install photovoltaic panels on your own balcony

Can you install solar panels on a balcony?

If you have a larger balcony and plan to install multiple solar panels, ensuring that the weight is evenly distributed can help prevent structural issues. Some solar panel installation companies provide solar panel racks or mounting systems designed specifically for balcony installations.

How much do balcony solar panels cost?

Installing balcony solar panels that are connected to the home's electrical system costs around £1,405 for two 350 W panels- most balconies won't have room for more than this. Are there any grants for balcony solar panels?

Do balcony solar panels produce power?

Understanding the power generation potential of balcony solar panels is essential for setting realistic expectations. The amount of power produced can vary greatly, being influenced by several factors, including the direction the balcony faces, the amount of sunlight received, and the efficiency of the solar panels installed.

Are plug-in balcony solar panels a good option?

Plug-in balcony solar panels can be a great option for people living in flats or rented accommodation. They aren't as expensive as regular roof-mounted systems, and they can still save you a little on your electricity bills. If you'd rather get solar panels professionally installed, we can help.

Can solar panels be installed on a south-facing balcony?

South-facing balconies receive the most hours of sunlight, allowing panels to produce more electricity than if they faced in another direction. Solar panels on east or west facing balconies will benefit from direct sunlight in the morning or afternoon respectively, so they are still viable.

How much does a solar panel weigh on a balcony?

When it comes to weight, balconies have load-bearing capacities that can't be exceeded. Solar panels, while not excessively heavy, will add to the overall load on the balcony. A standard solar panel can weigh between 15 to 25 kg. It is, therefore, crucial to consult with a structural engineer or a professional solar installer.
