

TEHRAN - Iran's Power Generation and Distribution Company (known as TAVANIR) and the Iranian Electrical Power Equipment Manufacturing and Provision Company (SATKAB) signed a memorandum of understanding ...

The Iran smart grid road map objectives and Iran AMI use cases identify that smart meters and smart grids are mostly likely to include the following technology options: Smart grid portfolio: o HV networks: automation, transmission line sensors, FACTS devices such as SVC Smart meter technologies: o Remote meter reading, two-way

Northeast says countries in the MENA region will spend US\$9.8bn on smart grid infrastructure including smart meters, distribution automation and smart city technology by 2024. Ben Gardner, president of the research group said ...

This article intends to present the implementation roadmap methodology of smart Iran's Electricity distribution networks by examining the road map of smarting in different countries and analyzing them, as well as reviewing the present situation of Iran from the point of view of smarting.

This article intends to present the implementation roadmap methodology of smart Iran's Electricity distribution networks by examining the road map of smarting in different countries and ...

OverviewHistoryFunctionality of FAHAMEnvironmental benefitsEconomical benefitsSee alsoExternal linksIn January 2010, The Iranian parliament regulated that Tavanir and Grid operators shall decrease electricity grid loss at least 1% per year with 14% overall network loss in 2015. This important decision has been also stated in clause 47 of the "targeted subsidy law." In March 2009, Tavanir assigned IIEO as Iranian AMI project manager. In April 2010, government decided to support finance of national smart metering roll-out to facilitate power network technical and non technical...

This chapter is composed of two major sections: Smart Grid Technology Roadmap in Iran and National Smart Metering Program (FAHAM). The first section is develops the Iran smart grid roadmap project, which is one of the subprojects of the Iran Smart Grid National Grand Project. The roadmap focuses on technology development.

TEHRAN - Iran's Power Generation and Distribution Company (known as TAVANIR) and the Iranian Electrical Power Equipment Manufacturing and Provision Company (SATKAB) signed a memorandum of understanding (MOU) for installing five million smart electricity meters.

IIEO is responsible for implementation and deployment of Smart Metering project (that is called FAHAM) in

Iran smart energy code company

Iran. The IEEO follows promoting energy efficiency and load management, improve system reliability, and reduce operational costs by implementing smart metering project.

The Iran smart grid road map objectives and Iran AMI use cases identify that smart meters and smart grids are mostly likely to include the following technology options: Smart grid portfolio: o ...
