

Is it cost-effective to install photovoltaic panels at home now

Should you consider solar panels as a home improvement?

It's also worth considering solar panels' value as a home improvement. Solar panels are attractive to potential new homeowners when you next sell your home, which can increase your property value as a result.

How much does a solar panel system cost?

Solar electricity is low carbon, renewable energy. A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK. That's the equivalent of driving 3,600 miles, or from London to Bristol 30 times. The average domestic solar panel system is 3.5kWp and costs around £7,000.

Do you own solar panels?

You own the solar panels. Under these schemes, you pay for solar panels over a fixed period, say 20 years. There are no upfront costs, and instead you pay a monthly fee, which usually covers the solar panel and battery installation, repairs and maintenance.

How much does a solar panel cost in the UK?

The average cost of a solar panel system for a typical three-bedroom house in the UK is £9,600, including a battery. Solar panels can save you up to £1,014 annually, totalling nearly £30,000 of savings over their lifespan. Adding a solar battery can boost your energy savings by up to 90 per cent.

Are solar panels a good investment?

Over the past decade, the cost of solar power has halved, making it a more attractive option for homeowners. With gas prices on a rollercoaster and climate change concerns mounting, solar panels are expected to become even more cost-effective in the future. After installation, solar panels start saving you money on energy bills immediately.

Do solar panels cost vs long-term benefits?

Dr Ben Kolosz is an Assistant Professor in Renewable Energy and Carbon Removal at the Energy and Environment Institute, University of Hull. We spoke to him about solar panel costs. "Homeowners should consider the cost versus long-term benefits of installing solar panels by evaluating factors like break-even time and potential savings.
