

JA Solar Panel Quality Inquiry

What is a JA Solar jam54d41-435/lb?

The JA Solar JAM54D41-435/LB is a 435W all-black solar panel from the Deep Blue 4.0 Series. This N-type bifacial double glass mono module has excellent efficiency and temperature coefficient. Panels in this range are protected by a 12 year product warranty and a 30 year linear power output warranty.

Is JA Solar a good solar panel company?

In terms of solar panel options, JA Solar has a number of variations for the customer to choose from. With the ability to get different power outputs, solar cell counts, and solar cells types, JA Solar offers a great level of flexibility that earns them a spot as a top solar panel on our reviews.

How much power does a JA Solar panel produce?

Power output of most home solar panels in the UK is 250W to 400W. JA solar panels are either at the higher end of this range or exceed it. For example, JAM60S20/MR solar panels offer 21 per cent efficiency with a peak power output of 390W, at a lower price than similar solar panels from many other manufacturers.

How efficient are JA Solar panels?

However, when combined with N-type technology, JA's monocrystalline solar cells are at the top of the efficiency scale for mid-range solar panels. A solar panel efficiency rating of more than 20 per cent is considered very good.

Do JA Solar panels have a warranty?

This results in lower prices for customers. JA solar panels typically come with a 12-year product replacement warranty and a 25-year power output warranty. The 12-year equipment warranty is shorter than that offered by some solar panel manufacturers. But the product warranty is in line with industry standards.

Who are JA Solar panels?

PVEL (DNV-GL) is one of the world's leading solar module testing services based in Germany and every year the company produces the annual PV Module Reliability Scorecard Report. Over the last 5 years, JA solar panels have consistently scored in the 'Top performer' category among 20+ of the world's leading solar brands tested.
