

# Japan lubi solar

What solar products does Lubi electronics offer?

Lubi Electronics's solar product offerings include solar photovoltaic modules, solar pumping systems and solar inverters. We specialize in designing and manufacturing high-quality electrical panels for a wide range of applications. Our panels are custom-built to meet your specific needs and are built using only the quality materials.

Where is Lubi solar based?

A enhanced state-of-art manufacturing unit is setup in Prantiya, Gandhinagar. Lubi builds a tremendous supply base in the renewable ecosystem with its solar offerings, establishing itself as one of the preferred vendors.

Who is Lubi electronics?

Lubi Electronics specializes in manufacturing AC and DC solar pumping systems. Our products achieve industry leading efficiency with lowest carbon footprint. Pumps and motors account for 1/3 of all electricity used in the world. Join us solarize all pump and motor applications for a sustainable tomorrow.

What is Lubi solar pump?

Building on the vision of providing renewable energy alternative through its solar products vertical; Lubi introduces solar pumps in the Indian market. The aim is to ensure access to clean water with a low cost solution. Lubi partners with MIRLE Automation Corporation, Taiwan.

Why should you choose Lubi electronics?

Lubi Electronics knows that clean affordable solar electricity is an essential part of the worldwide energy mix. Our experience across the solar value chain reduces risk while delivering more reliable, dependable and cost-effective solutions for our customers. Go solar, reduce your energy bills and make a positive impact on climate change.

Where is Lubi based?

Lubi starts unit for manufacturing control panels in Nana Chiloda, Ahmedabad. This facility becomes the stepping stone for Lubi becoming a well known manufacturer of high quality custom-made panels that offers reliability and efficiency.

Solar Energy has become a suitable alternative to non-renewable energy due to its last mile applicability in addition to large scale utility. Lubi Electronics's solar product offerings include solar photovoltaic modules, solar pumping systems and solar inverters.

Lubi Electronics specializes in manufacturing AC and DC solar pumping systems. Our products achieve industry leading efficiency with lowest carbon footprint. Pumps and motors account for 1/3 of all electricity used in the world.

Japan is spearheading the development of two promising technologies to make optimal use of both the Earth and space and fully harness the Sun's power as electricity: space-based solar power and next-generation flexible solar cells.

Solar energy in Japan is emerging as a cornerstone of Japan's strategy to meet its ambitious long-term sustainability goals. The Sixth Strategic Energy Plan aims for carbon neutrality by 2050 with an interim goal of 36-38% of energy from renewables by 2030.

SOLAR PUMP CONTROLLER Product Range  
o overall Efficiency : o MPPT Technology Pump Controller  
o.5HP - 20HP Solar & Grid Input Power accepted  
o RS485 real time remote control system  
o Dry run protection, Over voltage & Under voltage protection and Short Circuit protection
