

Kenya greenlife energy solutions

GREEN LIFE is the specialized manufacturer of eco-friendly solar thermal and Photovoltaic products like Solar Water Heaters, Solar Dryers, Concentrated Solar Thermal true parabolic dishes, Solar agriculture dryers, Submersible Pumps, Controllers, Inverters etc

Heat pumps work like an air condition, they absorb the ambient heat around them. We offer new generation state of the art hybrid heat pump water heating systems for the customers who want an energy efficient solution that serves them all year round whilst saving high electricity bills. These heat pumps are available in the range of 150ltrs to 500ltrs.

Aug 31, 2017 - ECLOF Kenya serves predominantly clients residing in rural areas. And it is those areas where most of the 43% of Kenyans without access to electricity live. They rely on kerosene, firewood and charcoal for lighting and heating, while bearing all associated hazards such as fire risk and harmful emissions.

We are now offering the best solutions to lack of energy access in the communities and therefore we are dedicated to providing energy access to off-grid communities and offering specialized CONSULTANCY and TECHNICAL services in Energy and environmental sectors.

Greenlife Energy Solutions Kenya is a solar energy company that is actively stepping it up by promoting green energy in domestic and commercial projects across the country. We do this by making solar energy easily accessible, practical, durable and a more affordable solution.

Greenlife Energy Solutions is an established company, that works on the premise of reducing your entire home's utility usage. Then after retrofitting your home to use less energy, we add on top of that a solar system designed to offset the rest. 4.0. 11 Reviews EnergySage Rating ...

We are enthusiastic to make this world a better and brighter place for tomorrow, by offering low-cost, sustainable, eco-friendly and renewable energy solutions. These absorb the sun rays as an energy source to produce electricity or heating.
